

## **Configuring AOL for VetRecruit**

The VetRecruit website uses 'cookies' to enhance the security of its data and that of its users. A cookie is a small file placed on a user's computer by a website. This file contains information used to verify your sign-in status as you navigate through the website.

It is possible to set your internet browser to reject these cookies; to sign in to the VetRecruit website, cookies must be allowed by your browser. The default settings of many browsers allow cookies, but AOL browsers are often set to automatically reject them.

To allow cookies, follow the instructions below for the AOL version you are using...
